

Interested in ROBOTICS CLUB?

Meetings will be divided into two, 5-week sessions this year!
They will occur on pre-scheduled Mondays from 3-4PM.

Students in grades 2-4 are welcomed to join,
and will be accepted on a first-come, first-serve basis.
They will follow digital instructions for each Lego build,
and will also get to design their own creations as well!

If interested, please contact Mrs. Menezes via email by
