

4/24/18

Dear Parents,

When serving a school with two-year-olds to eighth grade students, we are blessed to witness many milestones. Just watching the growth of our preschoolers alone is amazing! What they learn about school, how to be a student, and how much they observe of the world around them is incredible to see. The excitement of a student learning to read or accomplishing a difficult task happens here each day, and it is a privilege to be part of it all.

Our second grade students are preparing for a very important milestone happening this weekend. They have partaken in their first Reconciliation this year, and will now unite in Christ through their First Holy Communion. Helping our students lay the foundations of their faith and receive the Eucharist is the most precious part of our work. We are greatly honored to help develop their faith as well as their social, emotional, and academic growth.

As we enter into our last month of school, we look to our fifth grade to lead us in May Crowning. Also, as the fifth grader prepares for middle school, our eighth grade prepares for high school. This week, our eighth grade students venture off our campus to explore our nation's Capital. It is a wonderful learning experience to culminate their time at CKS. They also have been strengthened by the sacrament of Confirmation, and we have been in awe watching them grow over these formative years.

Thank you for entrusting us to be part of these experiences with your family and children. Christ the King School is a special place where memories are made and a strong foundation is set. Please pray for our students throughout the building, especially when they approach the many milestones of their lives.

Sincerely,

Paula Smith
Principal
Christ the King School
