

11-1-17

Dear Parents,

This is always an enjoyable time of the year. Yesterday, the preschool students loved showing off their costumes, and the other students enjoyed seeing them. The teachers had fun dressing up, too!

Kindergarten was able to spread the spirit of the day with the residents at the Provision and Mayfair Retirement Homes.

We have had a wonderful All Saints Day. Seventh grade dressed up as their saints, and shared what they learned at the end of Mass. They did a fabulous job!

Yesterday, third grade was learning and having lots of fun in the science lab. They played the role of engineers by using weights, gravity, etc., to get their bats down the zipline in four seconds.

Students were not only making predictions, but testing out their designs until they got it right!

Thank you for allowing me to share the many blessings God has given us in being part of such an incredible faith-filled community! Have a blessed All Saints Day, Christ the King!

Sincerely,

Paula Smith, Ed.S.

Principal, Christ the King School
