

September 17, 2018

Dear Parents,

Thank you for all your assistance in the following the safety procedures I mentioned last week in News Notes. We greatly appreciate you listening to our concerns and acting on them to provide a safer environment for our students.

Thank you for improving morning drop-off. We have seen a big improvement in walking across carline. Most everyone is walking at the cones when walking onto campus. This is much safer than walking through the bushes and through cars in the morning. We are also planning to paint more crosswalks in the front and back parking lots.

We have also noticed more students walking themselves into the building in the morning. That is awesome! But please remind students that they should go either to the cafeteria or to the middle school science lab if they arrive before 7:40 in the morning; they should not be in the halls unsupervised. Teachers are assigned to the cafeteria and science lab to provide student supervision until they are dismissed to the classrooms at 7:40 a.m. This gives time for teachers to prepare to prepare their classrooms for the day.

We also want to thank the Kentucky Center for School Safety for coming to our school tomorrow to do a safety assessment. As I said last week, these individuals are the experts on school safety. We appreciate that they have agreed to come to our school at our request. They are currently eligible to come to private and parochial schools because of a grant they have received. We appreciate their willingness to provide more safety suggestions to our school.

Thank you for your support and help in providing a safe school environment.

Many blessings,

Paula Smith
Principal
